

A message from Darlene and the Vaux Landscape Committee:

Many thanks to the team who have made the courtyard come alive with new flowers and the addition of soil – Howie, Karin, Jonathan, Bob and Marta, and Ron and Tricia.

A special thanks to Howie as without him we would not have progressed so quickly. While Howie is not officially part of the landscape committee, he has been a big part of the courtyard project. Tricia helped pick out new plants. Ron helped putting out soil. Karin (unit 106) helped trimmed the sweet box shrubs and putting out soil. Jonathan (unit 321) helped putting out soil and planting ground cover. Bob (despite the cast on one foot!) and Marta (unit 203) helped with unloading the soil and shrubs trimming (despite the cast on one foot!) We continue seeing Howie in the courtyard performing daily watering of new plants. Such a great Vaux community inspires us to keep going! We have received many great compliments by residents on the courtyard renewal.

We have encountered a few insect bites, scratches, sore muscles - we called this "the labor of love" and why not, as this is "our home."
